Alzheimer's disease

Babinski sign

ABBREVIATIONS

An abbreviation is a shortened form of a word or phrase.
Abbreviations can be in the form of:

chest x-ray • CXR.

CPR (cardiopulmonary resuscitation)

tablet • tab

cardiopulmonary resuscitation. • CPR

MEDICAL SPECIALISTS AND THEIR SPECIALTIES

logy

study or science “or “specialty

- ***Anesthesiology*** is the branch of medical science that specifically deals with the study of anesthesia or anesthetics. ”.

logist

one who studies” or “specialist

- ***Anesthesiologist*** is a physician who specializes in anesthesia

Combining Form	Meaning	Medical Specialty	Specialist
cardi/o	heart	cardiology	Cardiologist
dermat/o	skin	dermatology	Dermatologist
esthesi/o	feeling or sensation	anesthesiology	anesthesiologist
gynec/o	female	gynecology	Gynecologist
immune/o	immune	immunology	Immunologist
ne/o, nat/o	new, birth	neonatology	Neonatologist
ophthalm/o	eye	ophthalmology	ophthalmologist
path/o	disease	pathology	Pathologist
radi/o	radiation or radius	radiology	Radiologist
ur/o	urinary urine tract or	urology	Urologist

SURGICAL PROCEDURES

centesis

surgical puncture to aspirate or remove fluid

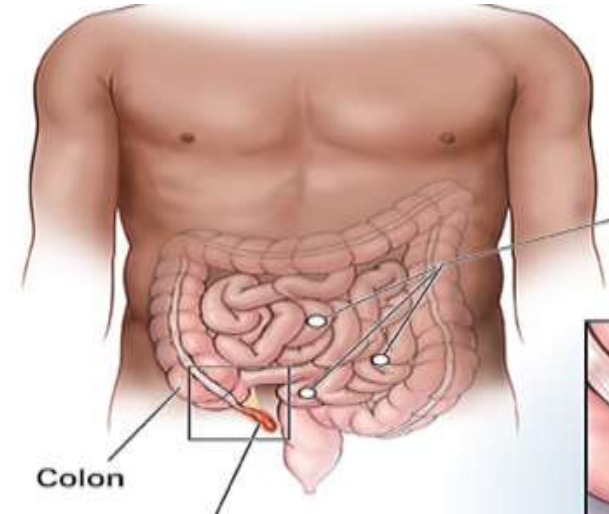

Paracentesis

ectomy

excision (surgical removal or cutting out)

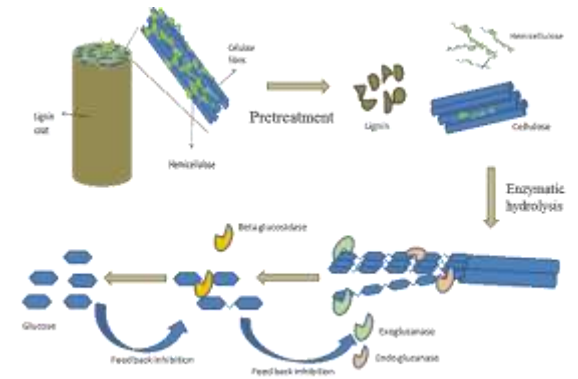

Appendectomy

lysis

process of loosening, freeing, or destroying

hydrolysis

SURGICAL PROCEDURES

plasty

surgical repair

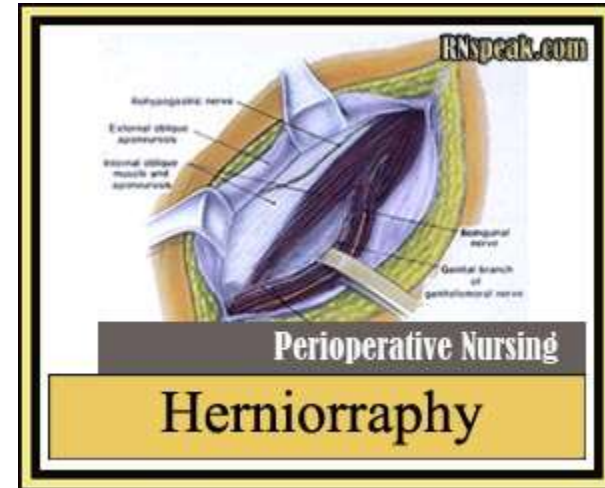

***Rhinoplas
ty***

rrhaphy

suture (fusing a
wound by stitches)

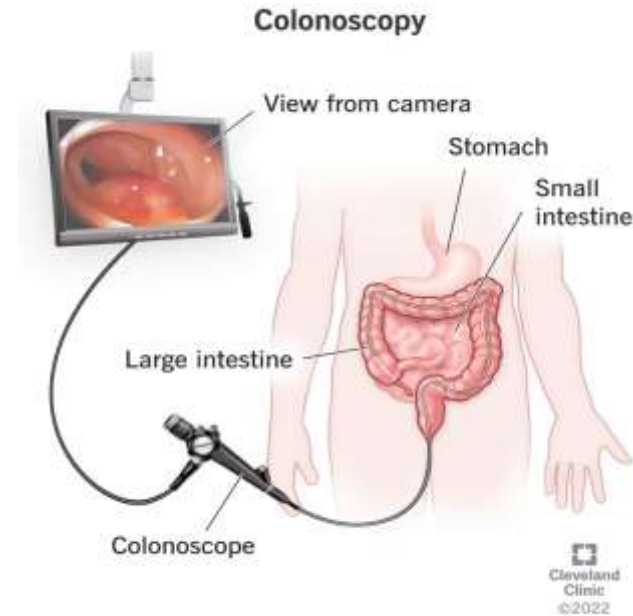

***Herniorraph
y***

scopy

visual examination
with the use of a
lighted instrument

Colonoscopy

stomy

creation of an
opening

Colostomy

BODY STRUCTURES:

aden/o gland

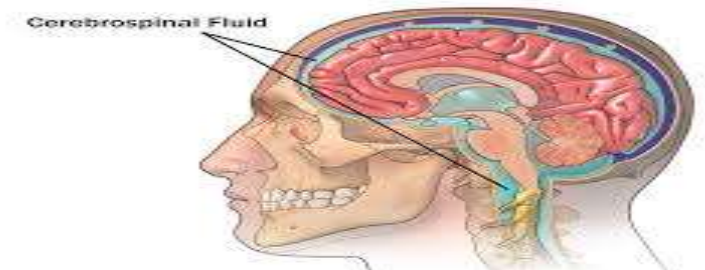

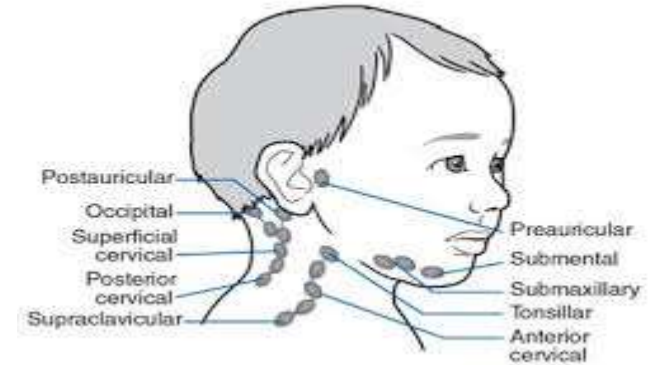

- Adenopathy refers to the enlargement of the glands.

bi/o life or living

- Biopsy is a procedure used to extract cells or tissues
- for examination.

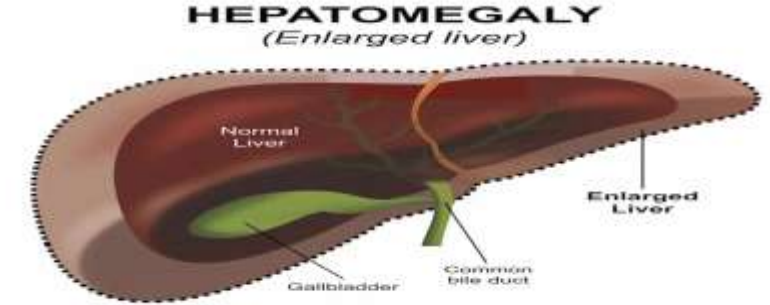

cerebr/o, encephal/o brain

- Cerebro spinal fluid
- Encephalopathy

- Hepatomegaly is enlargement of the liver.

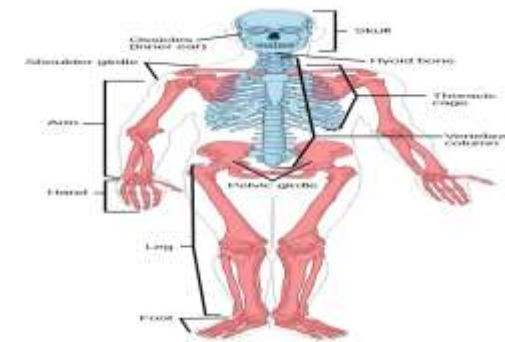

mamm/o,mast/o breast

- Mammogram is an x-ray of the breast.
- Mastitis is an infection of the breast tissue.

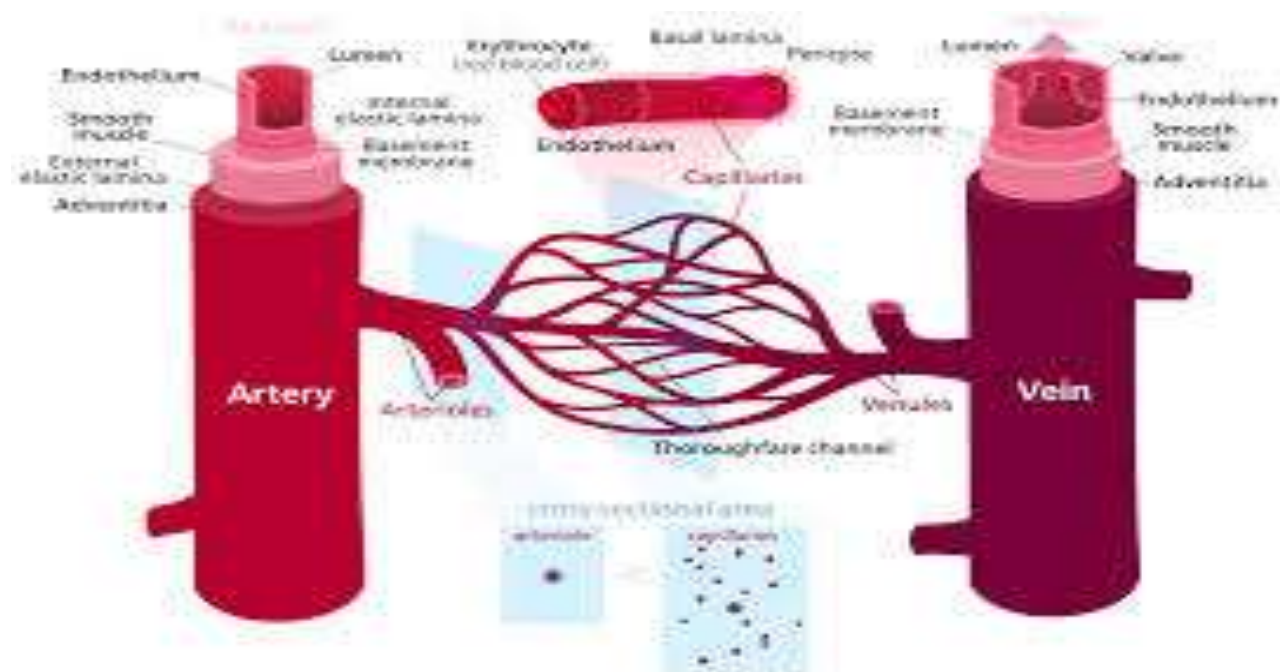

muscul/o, my/o muscle

- The musculoskeletal system is an organ system
- responsible for movement and activity.
- Myosin is one of the muscle proteins.

Widening of the blood vessels is known as vasodilation.

Normal blood vessel

Vasodilation
(widening of the blood vessel)

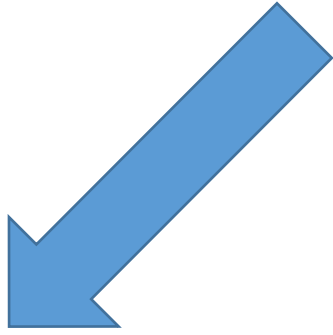

Vasoconstriction
(narrowing of the blood vessel)

SYMPTOMS

OR

DIAGNOSIS

indicates a disorder or disease in which changes in health status are perceived by the client

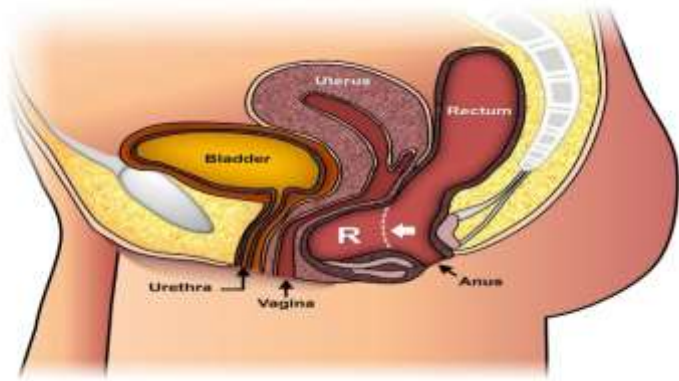

is the scientific determination of a disease process or condition after evaluation.

“

algia
pain

Arthralgia is joint pain.

Rectocele.

cele hernia

edema /
swelling

Edema “presence of excess Fluid in the tissues”

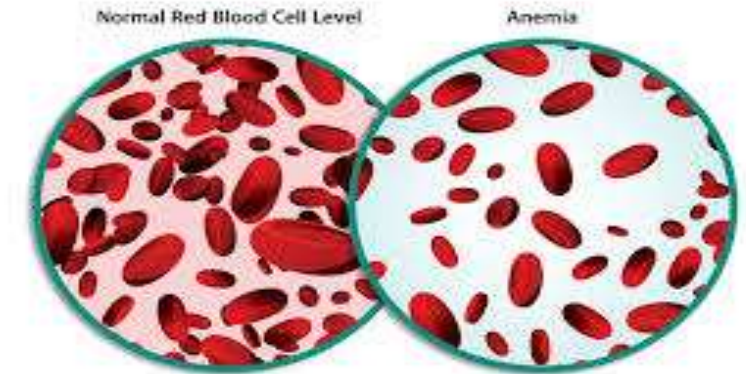

emesis vomiting

- Hyperemesis means excessive vomiting.

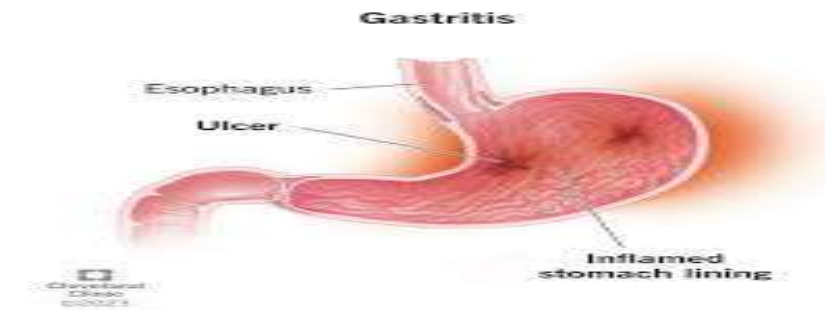

emia condition of the blood

- *Anemia* “decrease in red blood cells” or hemoglobin.

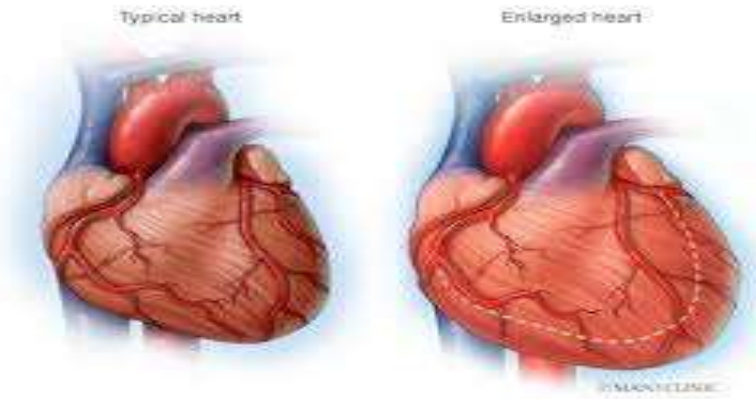

itis inflammation

- Gastritis “inflammation of the stomach”

megaly enlargement

- Cardiomegaly is the enlargement of the heart.

rrhage, - rrhagia excessive bleeding

- Hemorrhage means bleeding, which can be external or internal..

Hemorrhage

Thank
you

The image features the words "Thank you" in a dark blue, elegant cursive script. The text is set against a light cream background and is surrounded by various decorative elements. These include a pink flower with a dark center above the 'T', a yellow crescent moon to the left of the 'T', a red heart and a teal leaf near the 'k', a large pink flower with a dark center to the right of the 'u', and several small yellow and teal stars scattered throughout. The letters themselves have a slight white outline and a soft drop shadow, giving them a three-dimensional appearance.
